Student Comments:

- Abus fostered an environment where students were comfortable enough to ask questions and add to the discussion. This helped a lot in my learning having a lot of dialogue rather than him lecturing the whole time. He asked a lot of questions so that forced me to get on guard and make sure I was familiar with the concepts.

9 The instructor's teaching methods contributed to my learning.

Student Comments:

- He was very very helpful in making sure that all students understood the material. He would even reiterate it in different ways and would add humorous examples which was great for me in getting a better understanding.
- Mr. Abus is perhaps the most highly effective instructor I've ever met. He teaches in a way that is engaging, fun, and novel. For instance, he teaches regression using a unique "cloud" method he devised himself; I've never seen it anywhere else, and I am convinced it is the best way to truly understand the concept. After listening to him, I felt able not only to intuit concepts and use them myself, but also to teach them to a peer. It is obvious he loves what he does, and puts his best effort into every lecture/recitation. Having him as a TA has been one of the most helpful things A&M has provided me.
