Student Comments:

- Teaching methods definitely contributed to my learning. I liked how we followed along in class with his coding and then he uploaded the code for us to look at later on. Was always helpful with answering questions during class and made sure we really understood everything.

Student Comments:

- Always encouraged us to first try on our own, but he made it very clear each class that he wanted us to come to him with questions. Murat is the best TA I have ever had. He responds to emails in a very timely manner- usually within 20 minutes. He is also available later in the evening which is super helpful. A very fair TA. Told us at the beginning of the semester that as long as we were showing up to class and clearly making an effort, we would do well in the class. I would strongly encourage anyone to take his TA section. I would also have loved having him as a professor instead of a TA.
